

International Academy for Quality

## **Congratulations to Academician Professor Jiju Antony and Academician Professor Elizabeth Cudney being appointed as the Editor and Associate Editor of the International Journal of Quality and Reliability Management**

In January 2022, Academician Professor Jiju Antony (Professor of Industrial and Systems Engineering at Khalifa University, Abu Dhabi, UAE) has been appointed as the Editor-in-Chief of the International Journal of Quality and Reliability Management (IJQRM). Further to his appointment as the Editor-in-Chief, Professor Elizabeth Cudney (Program Coordinator for Data Analytics in the John E. Simon School of Business at Maryville University) has been appointed as Associated Editor of IJQRM last week. IJQRM is the Flagship Journal of Quality and Reliability in Europe and is considered to be a top tier journal in the world for quality management and engineering related topics. The International Journal of Quality & Reliability Management (IJQRM) deals with all aspects of business improvements and with all aspects of manufacturing and services, from the training of senior managers, to innovations in organizing and processing to raise standards of product and service quality. It is this unique blend of theoretical knowledge and managerial relevance that makes IJQRM a valuable resource for managers striving for higher standards. Both professors are delighted to work with the members of the Editorial Advisory Board and Review Board in the forthcoming years to take the journal to its next level from both academic and practitioners' standpoints.
