

October 12<sup>th</sup>, 2021

Dear IAQ member,

We believe that adequate Corporate Governance is a key, holistic factor in the development of a new, competitive, and sustainable landscape. With that purpose in mind the **Quality in Governance Think Tank -QiGTT-** is working. **We are professionals from the Quality and Finance fields, from Europe, North and South America and Asia.** We are convinced that Quality principles, methods and tools bring clear benefits to the functioning of governing bodies.

The QiGTT is leading **an open discussion about “The Board of the Future”**, to anticipate and discuss future demands and needs. We are holding that discussion using the “World Cafe” format and having experienced and qualified board members from different regions as participants.

As planned, we are **organizing the third Governance Cafe with experienced Board members from the USA, Europe and Asia.**

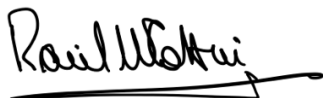

In the attached file you will find our complete presentation to the Sandholm 50<sup>th</sup> Anniversary event, which took place last month. **You will also find detailed information** about our Think Tank as well as on the organization, implementation and Insights of the first two Governance Cafes and the announcement of the third one to take place in the week of December 6<sup>th</sup>.

**We will very much appreciate your collaboration suggesting experienced board members to invite.**

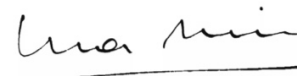

In case you have suggestions and/or questions we will be delighted to receive them and, if you prefer, to have a WhatsApp call.

Thank you for your collaboration,

Sincerely yours,

**Raul Molteni**  
QiGTT Chair

**Marcos E. J. Bertin**  
QiGTT Past Chair
